

# ClearFlite Air Purifiers

## Corporate Capabilities Statement

### Corporate Summary

**ClearFlite specializes in providing portable room air purifiers to government facilities around the world.**

ClearFlite offers several lines of high quality room air purifiers that remove airborne pollutants including:

**bacteria, dust, pollen, mold spores, smoke, VOC's, particles, chemicals, gases, odors, and much more.**

ClearFlite's high quality room air purifiers can significantly improve the air quality in offices, computer rooms, medical facilities, living quarters, and work environments. Productivity is highly affected by indoor air quality. Asthma is a major cause of productivity loss.

**ClearFlite air quality specialists excel in matching the air purifier to the problem.** Air purifiers differ greatly. The correct technology is critical.

**ClearFlite provides room air purifiers in the proper voltage for each country.**

At [airpurifiers.com](http://airpurifiers.com) since 1996, ClearFlite has helped government, business and consumers with air purifiers for allergies, asthma, multiple chemical sensitivity and other health challenges. ClearFlite sells only air purifiers which have proven track records and are supported by manufacturers which are stable and capable of making replacement filters for the long term. **All of our air purifiers have at least five year warranties.**

We offer a discount to all federal agencies not only on the products included in our GSA contract but on all the products sold on our commercial site at [airpurifiers.com](http://airpurifiers.com). We also provide free shipping in the continental USA.
